

As a premier healthcare provider, the **Institute of Mental Health** is Singapore's only tertiary psychiatric hospital that offers multi-faceted psychiatric treatment services. Our dedicated team of clinicians, allied health professionals, nurses and support staff work together in a unique and caring environment to ensure the mental well-being of the people of Singapore.

As part of our move to transform the mental healthcare system in Singapore, we seek passionate and innovative people to provide quality care and contribute to our evolving community-based network of support services. IMH is committed to help you achieve your potential in your career – join us now to be part of the team that will shape mental health for the nation!

We require Senior/ Clinical Psychologist to perform the following responsibilities:

### **The Challenges**

You will provide psychological services for both inpatients and/or outpatients within the psychiatric services as a member of a multi-disciplinary team of mental health professionals.

For the positions of Senior Clinical Psychologists, you will provide leadership to subordinate levels of staff and participate in the duties of subordinate levels of staff as and when necessary.

As a clinical psychologist in the Psychology Department, you will be expected to:

- provide services that include psychometric assessment, as well as individual and group psychotherapy
- contribute to mental health promotion programmes and psychological duties within the institute's framework
- participate in or conduct research

As a clinical psychologist in the REACH team, you will be expected to:

- work in a multi-disciplinary team to provide the following Psychological assessment and treatment programmes to students in schools and homes:
  - Assessments and triaging of students referred for mental health issues
  - School-based psychological assessments and treatment
- The successful candidate will also need to work with the community in the following manner:
  - Conduct training workshops for schools, voluntary welfare organizations and general practitioners
  - Provide advice and strategies to school counsellors and voluntary welfare organizations on managing students with mental health issues
  - Case management work in schools

### **The Requirements**

- Master of Psychology in Clinical Psychology from an established university.
- Preferably with 2 to 3 years of relevant working experience.
- For those who are applying for the position of Senior or Principal Psychologist, you should have at least 5 to 10 years of relevant working experience.
- Good interpersonal skills and the ability to work independently in a multidisciplinary team.
- It will be an advantage if you are holding or are eligible for a valid registration, license or practising certificate with an established or recognised psychological professional body such as APA, APS or BPS.

Remuneration will commensurate with the candidate's qualifications and experience.
