The Community Psychology Hub (CPH), a unit sited within SG Enable Ltd, is dedicated to improving people’s lives through innovative and quality psychological services. We work in active collaboration with partners in the social service and public sector to provide care for people with disabilities and their families in the community. For more information, please visit us at www.cph.sg.

**Psychologist / Senior Psychologist (Adult Disability)**

**Overview**
This position is for the role of a psychologist working with adults with developmental disabilities and other special needs in the Adult Disability setting (i.e., Day Activity Centre or Residential Home). This role aims to provide psychological services to individual clients presenting with behavioural issues and/or mental health concerns, and professional consultation to the staff and caregivers who support our clients. You will be working both independently and as part of a multidisciplinary team within the social service agency (SSA).

This is a full-time role that involves deployment to multiple sites and/or agencies depending on organisational needs. Travel accommodations to be further discussed.

**Responsibilities**
1. Provision of psychological assessment, therapeutic intervention and professional consultation for adults with developmental disabilities presenting with behavioural concerns and/or mental health issues
2. Creation and conducting of programmes (i.e., social skills, emotion regulation) for adults with developmental disabilities
3. Creation and conducting of psychoeducation and other programmes for staff and/or caregivers
4. Participate in routine care-planning and meetings as part of a multi-disciplinary team
5. Administrative duties
   - Attend and assist with group meetings, chair and/or present at the meetings when necessary
   - Assist in the planning and implementation of SSA/CPH activities as assigned
   - Attend in SSA/CPH events, including team bonding activities
   - Prepare and submit reports e.g., monthly KPI tracking as required
   - Perform any relevant clinical administrative duties (e.g., monthly statistics reports)
   - Carry out any other duties as assigned by Reporting Officer or Management
6. Self-development
   - Attend CPH/SSA endorsed training/workshops/seminars so as to develop relevant knowledge and skills
   - Receive formal supervision from CPH’s approved supervisors as part of professional development
   - Commit to reading, learning and researching on evidence informed practices, ethics and guidelines

**Requirements**
1. Educational qualifications
   - A recognised masters’ degree in Applied Clinical Psychology (e.g., Clinical Psychology, Counselling Psychology, Educational Psychology) from an accredited university. The programme must include a supervised practicum and supervised training in psychological assessments
   - Be eligible for registration with the Singapore Psychological Society (SPS) (Full Membership) and Singapore register of Psychologists (SRP) registration
2. Experience
   - Experience working with either children or adults with developmental disabilities and/or providing psychological services in similar settings (i.e., SPED, social services sector) will be an advantage
3. Other qualities
   - Strong oral and written communication skills
   - Exceptional interpersonal skills
   - Adaptable and creative
   - Able to work independently and collaboratively in multi-disciplinary team
   - Exceptional planning and organizational skills
   - Fluency in local languages
